#### Notice

CRD® or IARD(SM) Information: This report contains information from the CRD (Central Registration Depository) system, or the IARD system (Investment Advisers Registration Depository), which are operated by FINRA, a national securities association registered under the Securities Exchange Act of 1934. The CRD system primarily contains information submitted on uniform broker-dealer and agent registration forms and certain other information related to registration and licensing. The IARD system primarily contains information submitted on uniform investment adviser and agent registration forms and certain other information related to registration and licensing. The information on Uniform Forms filed with the CRD or IARD is deemed to have been filed with each regulator with which the applicant seeks to be registered or licensed and shall be the joint property of the applicant and such regulators. The compilation constituting the CRD database as a whole is the property of FINRA. Neither FINRA nor a participating regulator warrants or guarantees the accuracy or the completeness of the CRD or IARD information. CRD information consists of reportable and non-reportable information. FINRA operates the CRD system in its capacity as a registered national securities association and pursuant to an agreement with the North American Securities Administrators Association, Inc. (NASAA). FINRA operates the IARD system as a vendor pursuant to a contract with the Securities and Exchange Commission and undertakings with NASAA and participating state regulators. Reportable Information: Information that is required to be reported on the current version of the uniform registration forms. Non-Reportable Information: Information that is not currently reportable on a uniform registration form. Information typically is not reportable because it is out-of-date; it was reported in error; or some change occurred either in the disposition of the underlying event after it was reported or in the question on the form that elicited the information. Although not currently reportable, this information was once reported on a uniform form and, consequently, may have become a state record. Users of this information should recognize that filers have no obligation to update non-reportable data; accordingly, it may not reflect changes that have occurred since it was reported.

#### Notice

CRD® or IARD(SM) Information: This report contains information from the CRD (Central Registration Depository) system, or the IARD system (Investment Advisers Registration Depository), which are operated by FINRA, a national securities association registered under the Securities Exchange Act of 1934. The CRD system primarily contains information submitted on uniform broker-dealer and agent registration forms and certain other information related to registration and licensing. The IARD system primarily contains information submitted on uniform investment adviser and agent registration forms and certain other information related to registration and licensing. The information on Uniform Forms filed with the CRD or IARD is deemed to have been filed with each regulator with which the applicant seeks to be registered or licensed and shall be the joint property of the applicant and such regulators. The compilation constituting the CRD database as a whole is the property of FINRA. Neither FINRA nor a participating regulator warrants or guarantees the accuracy or the completeness of the CRD or IARD information. CRD information consists of reportable and non-reportable information. FINRA operates the CRD system in its capacity as a registered national securities association and pursuant to an agreement with the North American Securities Administrators Association, Inc. (NASAA). FINRA operates the IARD system as a vendor pursuant to a contract with the Securities and Exchange Commission and undertakings with NASAA and participating state regulators. Reportable Information: Information that is required to be reported on the current version of the uniform registration forms. Non-Reportable Information: Information that is not currently reportable on a uniform registration form. Information typically is not reportable because it is out-of-date; it was reported in error; or some change occurred either in the disposition of the underlying event after it was reported or in the question on the form that elicited the information. Although not currently reportable, this information was once reported on a uniform form and, consequently, may have become a state record. Users of this information should recognize that filers have no obligation to update non-reportable data; accordingly, it may not reflect changes that have occurred since it was reported.

Reportable Disclosures?

The specified individual has no disclosure that qualifies for reporting under this section (i.e., disclosure required to be reported on Form U-4 or Form U-5). Regulatory and Broker/Dealer Users: Please note that there are three types of disclosure in Web CRD: Reportable, Legacy and Archive disclosure. An individual with no reportable disclosure may or may not have Legacy or Archive disclosure. Investment Adviser Users: Please note that IARD does not include Legacy disclosure. Information reported on previous form filings through IARD is available under Filing History.

#### Notice

CRD® or IARD(SM) Information: This report contains information from the CRD (Central Registration Depository) system, or the IARD system (Investment Advisers Registration Depository), which are operated by FINRA, a national securities association registered under the Securities Exchange Act of 1934. The CRD system primarily contains information submitted on uniform broker-dealer and agent registration forms and certain other information related to registration and licensing. The IARD system primarily contains information submitted on uniform investment adviser and agent registration forms and certain other information related to registration and licensing. The information on Uniform Forms filed with the CRD or IARD is deemed to have been filed with each regulator with which the applicant seeks to be registered or licensed and shall be the joint property of the applicant and such regulators. The compilation constituting the CRD database as a whole is the property of FINRA. Neither FINRA nor a participating regulator warrants or guarantees the accuracy or the completeness of the CRD or IARD information. CRD information consists of reportable and non-reportable information. FINRA operates the CRD system in its capacity as a registered national securities association and pursuant to an agreement with the North American Securities Administrators Association, Inc. (NASAA). FINRA operates the IARD system as a vendor pursuant to a contract with the Securities and Exchange Commission and undertakings with NASAA and participating state regulators. Reportable Information: Information that is required to be reported on the current version of the uniform registration forms. Non-Reportable Information: Information that is not currently reportable on a uniform registration form. Information typically is not reportable because it is out-of-date; it was reported in error; or some change occurred either in the disposition of the underlying event after it was reported or in the question on the form that elicited the information. Although not currently reportable, this information was once reported on a uniform form and, consequently, may have become a state record. Users of this information should recognize that filers have no obligation to update non-reportable data; accordingly, it may not reflect changes that have occurred since it was reported.

#### Notice

CRD® or IARD(SM) Information: This report contains information from the CRD (Central Registration Depository) system, or the IARD system (Investment Advisers Registration Depository), which are operated by FINRA, a national securities association registered under the Securities Exchange Act of 1934. The CRD system primarily contains information submitted on uniform broker-dealer and agent registration forms and certain other information related to registration and licensing. The IARD system primarily contains information submitted on uniform investment adviser and agent registration forms and certain other information related to registration and licensing. The information on Uniform Forms filed with the CRD or IARD is deemed to have been filed with each regulator with which the applicant seeks to be registered or licensed and shall be the joint property of the applicant and such regulators. The compilation constituting the CRD database as a whole is the property of FINRA. Neither FINRA nor a participating regulator warrants or guarantees the accuracy or the completeness of the CRD or IARD information. CRD information consists of reportable and non-reportable information. FINRA operates the CRD system in its capacity as a registered national securities association and pursuant to an agreement with the North American Securities Administrators Association, Inc. (NASAA). FINRA operates the IARD system as a vendor pursuant to a contract with the Securities and Exchange Commission and undertakings with NASAA and participating state regulators. Reportable Information: Information that is required to be reported on the current version of the uniform registration forms. Non-Reportable Information: Information that is not currently reportable on a uniform registration form. Information typically is not reportable because it is out-of-date; it was reported in error; or some change occurred either in the disposition of the underlying event after it was reported or in the question on the form that elicited the information. Although not currently reportable, this information was once reported on a uniform form and, consequently, may have become a state record. Users of this information should recognize that filers have no obligation to update non-reportable data; accordingly, it may not reflect changes that have occurred since it was reported.
